Dear friends and colleagues,

It is a great pleasure and honor for me to invite you for the first fully virtual Italian-French Symposium, which will take place 5th of November, 2020.

This year the digital approach to the symposium will be a great opportunity for the surgical community to join both live and on-demand sessions everywhere, and debating on different issues about digestive oncologic surgery, with particular attention to the hepato-biliary, pancreatic and gastrointestinal cancers diseases. The two Live Sessions will include hepato-biliary and colorectal operations performed by the most important surgeons in Europe, and this year's edition there will be a session dedicated to the management of surgical complications during digestive surgery.

Hoping to meet you soon "on air".

Best regards,
Giuseppe Maria Ettore
