

2014 International Conference on Molecular Clinical Oncology 'Precision Medicine'

October 4th-5th, 2014 - Candiolo Cancer Institute, Italy

Invited Speakers and Chairmen

Alberto Bardelli, Candiolo, Italy
Carl Henrik Heldin, Uppsala, Sweden
Fortunato Ciardiello, Napoli, Italy
Gerard Evan, Cambridge, United Kingdom
Giampaolo Tortora, Verona, Italy
Giorgio Scagliotti, Orbassano, Italy
James Brenton, Cambridge, United Kingdom
Jan Paul Medema, Amsterdam, The Netherlands
Jeffrey Engelman, Charlestown, USA
Jos Jonkers, Amsterdam, The Netherlands
Josep Taberner, Barcelona, Spain
Livio Trusolino, Candiolo, Italy
Luis Alberto Diaz, Baltimore, USA
Manuel Hidalgo, Madrid, Spain
Massimo Aglietta, Candiolo, Italy
Oriol Casanovas, Barcelona, Spain
Paolo Comoglio, Candiolo, Italy
Salvatore Siena, Milano, Italy
Yosef Yarden, Rehovot, Israel

'Precision Medicine'

The concept that cancer is a disease of genes, a dogma in molecular oncology, has now acquired an unprecedented clinical value and provides the rationale to set up a classification of tumours based on the presence of defined genetic lesions. Thanks to these advances, the idea of giving a patient drugs tailored to the genetic makeup of the tumour is now becoming commonplace. The Conference will deal with tumour genotyping, identification of biomarkers for molecularly based patient stratification, investigation of the mechanisms of drug action and resistance.

The meeting will address the following issues,

'from bench to bedside', in three sessions:

- (1) Cancer Genes: Drivers and Targets
- (2) Personalised Cancer Medicine
- (3) Tumour Heterogeneity and Resistance

Deadlines and Fees

Abstract Submission & Registration: August 31st 2014
Fees: Regular: € 250; Academia: € 150;
Students in training: Waived (status to be documented)
